Hosp. Lib.
Baker

CONTENTS

No. 1. January, 1945

Effects of Oxygen at Increased Pressure. *John W. Bean* 1
Certain Animal Venoms and Their Physiologic Action. *Hiram E. Essex* 148
Neurosecretion. *Ernst Scharrer and Berta Scharrer* 171
Inorganic Industrial Hazards. *Lawrence T. Fairhall* 182

No. 2. April, 1945

The Adrenal-Gonad Relationship. *A. S. Parkes* 203
Phlorhizin Glucosuria. *F. W. McKee and W. B. Hawkins* 255
The Physiology of the Prostate Gland. *Charles Huggins* 281
Cerebral Concussion. *D. Denny-Brown* 296
The Appraisal of Nutritional Status (Nutriture) in Humans. With Especial Reference to Vitamin Deficiency Diseases. *W. J. Dann and William J. Darby* 326
The Proteins of Plants. *Hubert Bradford Vickery* 347

No. 3. July, 1945

The Relation of Adrenaline to Acetylcholine in the Nervous System. *J. H. Burn* 377
The Intermediary Metabolism of Fatty Acids. *William C. Stadie* 395
The Effects of Dietary Deficiencies Upon the Oral Structures. *Isaac Schour and Maury Massler* 442
The Physiological Effects of Sunlight on Man. *Harold F. Blum* 483
The Present Status of the Problem of Thermal Burns. *Henry N. Harkins* 531

No. 4. October, 1945

Control of the Secretion of Antidiuretic Hormone from the Pars Nervosa of the Pituitary Gland. *Mary Pickford* 573
Present Views on the Mode of Action of Acetylcholine in the Central Nervous System. *W. Feldberg* 596
Genetics and Metabolism in Neurospora. *G. W. Beadle* 643
Relative Nutritive Values of Animal and Vegetable Fats. *George R. Cowgill* 664
Interference with Biological Processes Through the Use of Analogs of Essential Metabolites. *Arnold D. Welch* 687
